Global Engineering Economics Financial Decision Making for Engineers is designed for teaching a course on engineering economics to match engineering practice today. It recognizes the role of the engineer as a decision maker who has to make and defend sensible decisions. Such decisions must not only take into account a correct assessment of costs and benefits; they must also reflect an understanding of the environment in which the decisions are made. The 4th edition has a new global perspective and presents examples and problems in a global environment. *Engineering Economics: Financial Decision Making for Engineers* N.M.
