

DYNAMIC PLANET

An interactive, computerized planetarium program to be used in conjunction with the Dynamic Planet program.

1. **OVERVIEW:** Participants will demonstrate an understanding of the long-term processes affecting the structure of Earth's crust.

A. THEMES OF THE TOPIC:

APPROXIMATE TIME: 45 minutes

B. EVENT DESCRIPTION:

- a. Over time, each topic is presented with data-representing information, a map, and a dynamic model. These resources, presented, used and noted are presented in the event program. A resource description is given of each resource, showing where the participant should go to complete the program. It is expected that the participant will be able to complete the program within the time limit.

- b. Over time, each topic is presented with data-representing information, a map, and a dynamic model.

C. OVERVIEW:

- a. Participants will be given an overview of each topic presented in the event program. These topics are presented in the event program. A resource description is given of each resource, showing where the participant should go to complete the program. It is expected that the participant will be able to complete the program within the time limit.

- b. Participants will be given an overview of each topic presented in the event program. These topics are presented in the event program. A resource description is given of each resource, showing where the participant should go to complete the program. It is expected that the participant will be able to complete the program within the time limit.

- c. Participants will be given an overview of each topic presented in the event program. These topics are presented in the event program.
