General Homogeneous Coordinates In Space Of Three Dimensions:

General Homogeneous Coordinates in Space of Three Dimensions Edwin Arthur Maxwell, 1959 **General**

Homogeneous Coordinates in Space of Three Dimensions E. A. Maxwell, 1951-12-01 The purpose of this book is at once modest and ambitious namely to provide a short introduction to algebraic geometry in space of three dimensions to make clear its spirit and to prepare the way for deeper study This book will appeal to a reader who has read Maxwell's book on homogenous coordinates in a plane to which this stands as a second volume and is in the early stages of second year work at University It will also be suitable for a class reader who has read further in mathematics generally but has found the existing detailed accounts of this work too full or too specialised for their own needs and is in need of an accessible introduction
