shown what can be achieved by one man based on his own work and those of others in general practice John Lawson RCGP 1983 President of the Royal College of General Practitioners vi Preface The Present State and Future Needs series had its roots in the dark days of the early 1960s when morale in general practice was low and when numbers of new entrants were actually going down They were the days of mass emigration of doctors from Britain and the National Health Service The fourth and fifth editions were entitled Trends in General Practice 1977 and 1979 General Practice Revisited Ann Cartwright,Robert Anderson,2024-04-01 This study of general practice and the attitudes of patients and general practitioners to it is the most significant book yet written about the NHS This was how the reviewer in the British Medical Journal reviewed Ann Cartwright s earlier book Patients and their Doctors In General Practice Revisited originally published in 1981 Ann Cartwright and Robert Anderson compare the experiences and views described in the first study carried out in 1964 with those revealed by a second survey in 1977 In the intervening period there were a great many changes in the organization of general practice For example appointment systems and nurses working in the surgery became the rule rather than the exception and the number of doctors working in health centres or using deputizing services rose dramatically This study shows how the basic patient doctor relationship has been affected by these changes A fundamental feature of the survey is the demonstration that the attitudes and practices of patients and doctors are linked and that it is possible to relate the experiences and degree of satisfaction of patients to the doctor s age sex size of practice equipment ancillary help and indeed to the doctor s views and habits By bringing the picture of general practice up to date Ann Cartwright and Robert Anderson provided the basic data for any discussion of primary health care in this country at the time Higher Professional Education for General Practitioners Ed Peile,Glynis Buckle,Derek Gallen,2018-08-08 Higher Professional Education for General Practitioners is a practical guide on the best ways to plan educational and vocational training needs throughout professional practice It clearly outlines the underlying issues surrounding the introduction of higher professional education HPE enabling newly qualified professionals to focus on areas that they feel less competent in and areas that require additional training In an easy to read format it provides all the necessary information to assist readers undertaking HPE and for all those setting up educational programmes for newly qualified GPs in the first year after their vocational training scheme **International Record of Medicine and General Practice Clinics** Edward Swift Dunster, Frank Pierce Foster,James Bradbridge Hunter,Charles Eucharist de Medicis Sajous,Gregory Stragnell, Henry J.
