Genius Loci Vernon Lee, 2017-09-11 Trieste Publishing has a massive catalogue of classic book titles Our aim is to provide readers with the highest quality reproductions of fiction and non fiction literature that has stood the test of time The many thousands of books in our collection have been sourced from libraries and private collections around the world The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original Our readers see the books the same way that their first readers did decades or a hundred or more years ago Books from that period are often spoiled by imperfections that did not exist in the original Imperfections could be in the form of blurred text photographs or missing pages It is highly unlikely that this would occur with one of our books Our extensive quality control ensures that the readers of Trieste Publishing s books will be delighted with their purchase Our staff has thoroughly reviewed every page of all the books in the collection repairing or if necessary rejecting titles that are not of the highest quality This process ensures that the reader of one of Trieste Publishing's titles receives a volume that faithfully reproduces the original and to the maximum degree possible gives them the experience of owning the original work We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality but also providing value to every one of our readers Generally Trieste books are purchased singly on demand however they may also be purchased in bulk Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates Cult Places and Cult Personnel in the Roman Empire Duncan Fishwick, 2023-05-31 The twenty one studies assembled in this volume focus on the apparatus and practitioners of religions in the western Roman empire the enclaves temples altars and monuments that served the cults of a wide range of divinities through the medium of priests and worshippers Discussion focuses on the analysis or reconstruction of the centres at which devotees gathered and draws on the full range of available evidence While literary authorities remain of primary concern these are for the most part overshadowed by other categories of evidence in particular archaeology epigraphy numismatics and iconography sources in some cases confirmed by the latest geophysical techniques electrical resistivity tomography or ground probing radar The material is conveniently presented by geographical area using modern rather than Latin terminology Rome Italy Britain Gaul Spain Hungary along with a broader section that covers the empire in general The titles of the various articles speak for themselves but readers may find the preface of interest in so far as it sets out my ideas on the use of ancient evidence and the pitfalls of some of the approaches favoured by modern scholars Together with the wide range of individual papers the preface makes the book of interest to all students of the Roman empire as well as those specifically concerned with the history of religions Literature ,1899 Handbook on Tourism Planning Philip F.
