Generation We Generation We:

Engage All Generations Cory Seibel, 2021-06-01 Engage All Generations suggests how every church can build on its potential and become a more vibrant witness of God's Kingdom. Divided into three sections, the book focuses on key growth edges in the unfolding conversation about intergenerational ministry: Learning and Growing Together, Praying and Playing Together, and Leading and Changing Together. Practical, accessible, encouraging, and thought-provoking, this book provides the crucial next building block in our understanding of intergenerational ministry. It is sure to benefit congregations already engaged in fostering intergenerational approaches and those desiring to experiment with becoming intentionally intergenerational.

Justice to Future Generations and the Environment Hendrik Philip Visser 't Hooft, 1999-06-30 This book contributes to the discussion about obligations to future generations by arguing that a principle of justice according to which we must share the environmental resources of the planet with future generations must be considered to be part of the just basic structure of society. The argument is based on a close study of Rawls' theory of justice and particularly of its treatment of the future generations issue. But the author claims that the affirmation of a principle of justice towards future generations must be accompanied by the attempt to articulate the motives that shape a concern with the fate of future persons in the first place. In order to consider and further its real chances, we must put the perspective of justice between generations with its very detached character within the context of our view from the present, such as it is situated in historical time. This opens a fascinating but difficult field of inquiry about intergenerational value and its different aspects. Although it is centred on the theory of justice and on general ethics, the book also pays attention to the legal issues raised by the notion of a future-oriented just basic structure of society.

God's Generation of Hope Carl Barrett,2024-11-27 In a day and age where society and culture are veering further away from the teachings of God s word in homes globally it is becoming more and more evident that there is a breakdown within the walls of family homes across this great land Undoubtedly these times of confusion in the home schools and communities are escalating each passing day creating more division and disheartenment With all the spiritual threats robbing people s children of Hope something within the walls of the home must change for the well being of these young ones today more than ever If parents and family leaders don t engage with their children and rein in these apparent issues they will continue to see a generation of people spiraling out of control This book God s Generation of Hope is going to reveal some heart wrenching and eye opening facts about how external forces are creeping inside the lives of families and creating a distance between the household and Almighty God Someone must take ownership immediately for the children s state of spiritual survival Parents action is needed today to instill the Living Hope in the lives of the younger generation like never before
