Music Learning Today William I. Bauer, 2014-04 Music Learning Today Digital Pedagogy for Creating Performing and Responding to Music presents an approach to conceptualizing and utilizing technology as a tool for music learning It describes how connecting musical knowledge and skill outcomes pedagogy and technology may support development and refinement of student musicianship

Hearing and Writing Music Ron Gorow, 2011-03-15 A self training manual as well as a classroom text this book is a complete step by step course to develop the musician s ability to hear and notate any style of music Personal training theory and exercises produce techniques which are combined in an integrated craft which may be applied to composition orchestration arranging improvisation and performance A kind of finishing school for those who wish to pursue a career in composing orchestrating arranging or performing The Score Society of Composers and Lyricists A myriad of practical information Comprehensive ear training important because aural skills are among the most overlooked in music education Survey of New Teaching Materials Jazz Educators journal A synthesis of the author s vast knowledge and his quest to define the question How do we hear ITG Journal A wonderfully systematic approach to ear training neatly designed and structured it just flows Direct and easily understood New books Jazz Educators Journal Bernard Brandt says *Hearing and Writing Music* by Ron Gorow is a superb book It makes a simple and elegant presentation of the internal process by which we hear sounds and music how we recognize intervals chords melody harmony counterpoint and the timbre of instrumentation orchestration how we can develop the skills of listening auditory memory and imagination and how to use these skills to hear and to write down music of any sort The hallmark of an expert is the ability to explain the basics of his field as simply as possible By that standard Mr Gorow has proven his expertise in this book I note that the other reviews both for Amazon and in musical journals tend to limit the importance of *Hearing and Writing Music* to ear training I believe that Mr Gorow s book is valuable for much more than ear training I have studied it and as a result of that study I believe that my auditory memory and imagination and my abilities in score reading have improved enormously Further I have been able to use the skills in this book to transcribe melodies harmonies and counterpoint almost effortlessly both those that I have heard and those which existed only in my imagination This book has opened many doors for me I believe that it can do so for many others

Practical Music Education Technology Richard Dammers, Marjorie LoPresti, 2020-02-12 Today s music teachers are caught in a conundrum about technology while all are interested in it and told to utilize it in music instruction a lack of equipment and funding act as enormous barriers to technology access In fact studies indicate that the mere perception of these obstacles may be partly

responsible for the gap between these teachers interest in technology and the lack of technology integration in the classroom As a result students potentially miss out on active hands on music technology instruction at school In Practical Music Education Technology veteran music educators Rick Dammers and Marjorie LoPresti help music teachers introduce technology into the classroom by providing accessible strategies to support and enrich students musical learning The authors highlight a plethora of free online tools at teachers disposal and provide options that can be flexible for all school environments and types of teachers from those with large budgets to those operating on a shoestring from those well versed in technology to non experts Each chapter outlines pedagogically appropriate resources and strategies that facilitate support and enhance music learning performance and creation Additionally model lesson plans featuring classroom tested uses of technology aim to empower student engagement while also keeping music learning goals at the forefront All teaching ideas presented can be tailored to individual teachers needs and preferences making Practical Music Education Technology an essential guide to music technology for the everyday music teacher
