this thousand mile journey is to know the twists and turns of being a leader In this book you will not only learn a handful of things you need to know about leadership but also see and understand everything it takes to be a true leader Welcome aboard The Leadership Course Here Is A Preview Of What You ll Learn Leadership Defined Kinds of Leadership What Leadership Is Not World s Best Leaders Formula to Becoming a Good Leader Leadership in Books and Films Much much more Leadership Defined Leadership is a term so broad and an idea so vast that many people have various perceptions on what leadership means In a rather simple context leadership is a trait or quality attributed to a leader and a leader is seen as someone whom a group of people follows or somebody who guides and directs his subordinates A leader is someone who can do so much as to influence other people and enlist their aid and support Since the term and the idea itself slightly varies a handful of those whom we consider as leaders have given their insights regarding leadership It is a must to realize what leadership is for these people who have become leaders themselves Lao Tzu had something to say about leadership This much revered ancient Chinese philosopher and founder of Taoism is a leader himself His influences not only on his homeland but also on the entirety of the world have been so vast and powerful that his teachings continue to live on until today Lao Tzu said A leader is best when people barely know he exists when his work is done his aim fulfilled they will all say we did it ourselves Lao Tzu s thought on leadership is a rather deep one extending beyond the physical For Lao Tzu a leader does his job best when he can make his men accomplish their mission without him actually taking part in the physical endeavors A leader is someone who brings out his men s best potential not someone who does most of the work One of the greatest military leaders in the world s history the French general and emperor Napoleon Bonaparte appears to same almost the same thoughts of leadership with Lao Tzu When I give a minister an order I leave it to him to find the means to carry it out For him leadership is not about directing people all the way through getting a job done Being a leader involves choosing the right men to do the right job and letting them do it their way

Procrastination: How To Eliminate Procrastination And Be Disciplined, Stop Wasting Your Time And Be A Productive Person For Life Tom Norman,2015-02-03 Procrastination How To Eliminate Procrastination And Be Disciplined Stop Wasting Your Time And Be A Productive Person For Life This book contains steps and strategies which aim to help a person eliminate habits leading to procrastination It also tackles when and how procrastination starts It mentions situations habits and choices made early on that are clear signs to becoming a procrastinator Included in the third chapter is a set of questions involving daily activities Read it and see if you often find yourself in such situations Admit it or not the types of

procrastinators mentioned here are all too familiar to you. See what type of procrastinator are you. Often people ask themselves, "Why do I procrastinate when there's enough time given to finish the task or project?" You'll be surprised to know why people procrastinate. To some it's a form of escape; to others it involves fear. Read on and see where your procrastination habits come from. Lastly, the advice and to-do list found in the later chapter aims to help people overcome their procrastinating habits and improve their life. Remember that nothing happens overnight, so take small steps and make it part of your daily routine. Don't worry. The first step every procrastinator has to make is to admit that they are one and that they need help. The acceptance and the willingness to change are key factors to make things work. This book doesn't aim to make you feel bad; instead, it wants to help you overcome procrastination to encourage you to be more productive and positive in life. Take time reading the chapters, enjoy, and do implement them. Start with small changes which will change to your way of life.

Procrastination in its Simplest Form

Procrastination is known as avoidance behavior. Tasks and responsibilities are postponed. Things that need attention are put on hold. Procrastinators delay the action needed to accomplish their tasks. They wait until the last minute before they start or do something. As a result, there are times when they fail to meet deadlines or they submit late. They will always delay what can be done at present and choose to do it later. It starts early, unconsciously, during a one's childhood. Try to recall how your studying habits were back then. Do you often think that there's more time only to realize that you have underestimated time and end up cramming? Regardless of the importance of a task, you always take it lightly and deal with it at a later time. Try looking at your home: is it organized or is it in chaos? Do you have difficulty putting things back to where you took them? How does your closet look like? Are the clothes neatly folded or is it all mixed up? There is a good chance that you have said the words "later more often than you should." Maybe it's time to analyze such habits and patterns seriously. They might be signs all along that procrastination has been negatively affecting your life. Don't procrastinate in changing your habits. Now is the best time to put things in order.
